Gorgeous Geometrics from Furniturespot – the new Cohesive Roots Collection

Furniturespot is constantly seeking like-minded for challenging collaborations to create one-of-a-kind furniture pieces made just for you. Furniturespot is proud to release the Cohesive Roots Collection. An eclectic collaboration between Fabric Bank, a bespoke South African digital fabric printing house and Glorinah Mabaso, a young talented fabric designer.

Neutral palettes, bold geometric patterns and careful use of clean lines sums up these fabric designs by Glorinah. The tribal prints and modern furnishings introduces us to her vision of Africa. Taking us back to her rural roots of Limpopo. Glorinah: “The combination of tribal patterns and modern furnishings, creates a beautiful balance symbolising where I come from and where I am now”.

This furniture range has a local flair to it and is distinctly African with a modern infusion of lush velvet. The bold and unique prints make each piece elegant and a distinctive master piece. Glorinah's core mission is to redefine the African design style by introducing the vision of her Africa to the world. Furniturespot is proud to share this message through this furniture collection.

The Cohesive Roots Collection consists of a platform bed with a headboard, ottoman and an occasional chair. The hero in the collection is the headboard – bold and elegant it features different fabrics to make it a statement piece. The frame is handcrafted and made of a combination of soft velvet and designed fabric. This beautiful fair priced platform bed is luxurious in appearance and padded with extra cushioning to provide the most comfort to any bedroom. Add the beautiful ottoman to make it a matching set.

All pieces are available in emerald green, bold blue or lavish grey.

Those are just a few of the highlights, to see the full range visit Furniturespot.co.za – a trailblazer in the home décor and interior industries of South Africa. Made-to-order furniture with a simple online process – Made just for you.

About Furniturespot

Furniturespot is a new and exciting concept that is setting the trend in South Africa. They offer custom-made furniture, inspired, designed, sourced and manufactured by local talent, at an affordable price. The Furniturespot model is designed to respond intuitively to South Africa’s design needs and demands, coupled with reputable manufacturers and locally sourced materials together with a fair price. The online platform, launched in 2017, is where South Africans can create exactly the pieces they envisage - custom-made to their specifications. Furniturespot firmly believes that ‘local is lekker’ and have partnered with Designers and Manufacturers, true craftsmen, who are
